Saskatoon Community Clinic

Community Health Services (Saskatoon) Association is an **Employment Equity Employer**

Family Physicians Required
Permanent, part-time to full-time

The Saskatoon Community Clinic is currently recruiting for family physicians to join our team! This opportunity will have our physicians working at both our Westside Community Clinic as well as the soon to open Saskatoon Urgent Care Centre. Our primary health care centres include a robust inter-disciplinary team which enables our family physicians the time, support, and access to services they need to provide quality family and patient centered care. Our team members include nurse practitioners, counsellors, lab and diagnostic services, nurses, dieticians, occupational therapists, physical therapists, outreach and pharmacists. We place a strong emphasis on health promotion, disease prevention, quality improvement, and support for persons who are typically underserved in community.

Working at the Saskatoon Urgent Care Centre will provide an important addition to health care services for residents of Saskatoon and the surrounding community. The UCC is designed to provide patients with timely access to necessary health care for urgent, but non-life-threatening illnesses and injuries that need medical care. It will then connect patients to community services within health networks which may include home care, crisis intervention and other avenues of primary health care. The UCC is also staffed with a multidisciplinary care team, including mental health professionals, to provide patients better access to urgent medical attention for a variety of needs.

By working shifts at both locations, our family physicians will be able to expand their scope of practice and provide the best care to their panel of patients while also serving the urgent needs in our community.

At Saskatoon Community Clinic, we operate within a shared care model and collegial work environment where physicians feel valued and connected to the work. As a co-operative our structure is such that providers have an important voice in determining how care is provided to our community. We offer excellent working conditions, emphasizing work-life balance. This includes providing a competitive salary, along with exceptional benefits, paid time off including vacation, study leave, and sick leave provisions. To support you clinically, we also offer AI scribe, EMR environment, Up-to-Date subscription, and paid professional fees.

Applicants must be able to obtain a license to practice in Saskatchewan and obtain family medicine privileges with the Saskatchewan Health Authority. Preference will be given to applicants with certification in family medicine.

Please apply with submission of CV by email to: hresources@communityclinic.ca
